

JOEPETH DEL PUERTO

joepethdelpuerto@outlook.com | +971552846874 | Dubai, United Arab Emirates

PROFESSIONAL SUMMARY

E-Commerce Specialist with 5+ years of experience in e-commerce operations, product and data management, administrative coordination, and technical support. Skilled in Shopify, Noon, Amazon FBA, product listings, catalog management, inventory tracking, order processing, customer service, e-commerce merchandising, and Excel reporting. Detail-oriented professional experience in maintaining accurate records, coordinating with vendors and internal teams, and supporting efficient e-commerce operations.

PROFESSIONAL EXPERIENCE

E-Commerce Specialist – Unimar BLDG Services LLC

Aug 2024 – Aug 2026 | Dubai, United Arab Emirates

- Manage and optimize product listings across e-commerce websites and online marketplaces, ensuring accurate, engaging, and SEO-friendly product content.
- Create, edit, and maintain product titles, descriptions, specifications, images, pricing, inventory, and promotional information.
- Establish and maintain standards, processes, and best practices for product listing, content creation, distribution, and ongoing maintenance.
- Collaborate with Product Management, Graphics, Sales, Marketing, and other teams to ensure consistent and up-to-date product information across e-commerce platforms.
- Manage assigned product categories and maintain strong knowledge of products, market trends, competitors, pricing, and customer requirements.
- Apply SEO, SEM, and ASO best practices to improve product visibility, search rankings, traffic, and conversion performance.
- Monitor product inventory, pricing, promotions, pre-orders, and availability across e-commerce channels.
- Analyze product sales, website performance, and customer behavior using web analytics and Excel, including PivotTables, VLOOKUP/XLOOKUP, and reporting tools.
- Track product and campaign performance, identify trends, and provide insights to support sales and e-commerce growth.
- Maintain data accuracy and consistency across product catalogs, marketplaces, and internal systems.
- Manage multiple priorities and deadlines while maintaining strong attention to detail and content quality.

Administrative Coordinator – Support Zebra Philippines

May 2018 – Mar 2024 | Cagayan De Oro City, Philippines

- Promoted from IT Help Desk Support to Administrative Coordinator in recognition of strong performance, technical expertise, and dependable service — expanding scope to office administration, records management, and data accuracy.
- Prepared reports and maintained administrative records and databases, ensuring high accuracy through consistent data entry and rigorous record maintenance protocols.
- Managed office resources, procurement, and vendor coordination, ensuring timely, cost-effective supply of materials through organized vendor management and accurate record-keeping.
- Delivered professional IT support, troubleshooting hardware and software issues across the organization, while managing IT assets with meticulous tracking to ensure data security and minimal downtime.
- Ensured data privacy compliance and secure records management, safeguarding confidential information through controlled access, regular audits, and adherence to organizational policies.

PROJECT EXPERIENCE

AI Software Engineer

BrandPeth.ae | Personal Business E-commerce Project

Technologies: React | Vite | Tailwind CSS | Stripe

- Built and launched a customer-facing e-commerce store for eco-friendly home products in the UAE.
- Developed product-focused pages with clear product information, pricing, shopping flow, and checkout functionality.
- Implemented a responsive e-commerce experience focused on product discovery, customer experience, and smooth online purchasing.
- Integrated Stripe for online payments and designed the platform for UAE-wide delivery.

- Created and edited visual content for product listings, promotional materials, and website assets using Adobe Creative Suite, Canva, and Adobe Illustrator.

Edge Plus Fitness | POS & Management System | Portfolio Project

Technologies: Next.js | TypeScript | Tailwind CSS | Cloudflare | GitHub

- Developed a full-featured point-of-sale and management system for a gym environment.
- Implemented membership management, walk-in and member sales, product inventory, attendance tracking, leads, transactions, and reporting.
- Built VAT-ready checkout functionality with multiple payment methods.
- Designed a centralized dashboard to support daily sales and operational management.

U-Office | Business Management CRM | Unimar Project

Technologies: React | TypeScript | Express | SQLite | Cloudflare | GitHub

- Designed and developed a full-stack CRM and office management system to centralize business operations.
- Implemented modules for tasks, departments, meetings, documents, visitors, office supplies, and role-based access.
- Built digital workflows to improve data organization, operational visibility, and administrative efficiency.
